## Fun for Family Reading Night!

Are you looking for great entertainment for family reading night or something special for Halloween or Christmas? Our Picture Book Show brings to life some of the latest and greatest in children's literature, and is a perfect solution for your family event. The Picture Book Show is a collection of shorter puppet shows lovingly adapted from contemporary children's picture books. We design and build puppets based on the books' illustrations and create a show that is faithful to the authors' original work. And with new books being published all the time, The Picture Book Show is always changing. You'll probably never see the same show twice.
